

NOLAN HELMET GUIDE

N43 Trilogy

One of the most versatile helmets ever, with 6 configurations, the N43 is designed to adapt to your riding needs.

N43

Quite simply, the safest, best constructed open face helmet on the market.

N103

The standard for modular flip-front helmets. Whether you want to ride open face or full face, the N103 provides the best of both worlds.

Nolan Features

Sunscreen (VPS)

A simple and practical sunscreen that easily raises and lowers.

Lower Ventilation

Conveys external air into the visor ensuring defogging and ventilation.

Retention System

MICROLOCK is a fully adjustable and extremely comfortable modern system. Securing your helmet has never been easier.

Wind Protector

Improves helmet air flow and performance by preventing air infiltration on the chin area.

Top Ventilation

Uses patented Jet Stream Wing system to provide optimal air circulation and control.

NFR - Nolan Fog Resistant System

An inner visor that improves resistance to fogging ensuring greater visibility even in high humidity.

Removable and washable comfort padding

The innovative "Clima Comfort" padding is hypo-allergenic, breathable and wicking. Stays fresh and protects against odors, fungus and bacteria.

N-Com Ready

Optional N-Com Bluetooth system eliminates wires between electronic devices and helmets.

N43 Trilogy *the Crossover Helmet*

Features

- 6 in one design
- Crossover design with quick-change accessories allows for customized looks and functions for every ride. Comes with the clear shield, the integrated sun shield, the peak and the removable chinbar.
- GE Lexan® chinbar is EPS lined. Mounted with strong stainless-steel latches, it passes the tests for full-face helmets of the European standard ECE-2205.
- VPS® (Vision Protection System)- short dark shield mounted on the inside of the helmet and moving independently from the face shield. It provides real eye protection and is also available in amber, light blue and light smoke. It is easily operated by a large rubber coated slider on the left side of the helmet.
- Quick-change shield is optically correct UV400, and fitted in an exceptionally large eye port. It accepts the Pinlock® anti-fog insert (included).
- The short black peak can be installed in seconds instead of the clear shield.
- Ready for the N-com® communication system.

- Lightweight aerodynamic polycarbonate shell with built-in spoiler for improved stability (3.6lbs with all accessories).
- Fully removable and washable Clima-Comfort® liner is antibacterial, antifungal and wicking.
- Super efficient JSW® top vent with exhaust grid in the rear spoiler works in conjunction with the air channels along the crown. It is operated by a glove-friendly rubber slider.
- Microlock® (adjustable quick release) retention system.
- Velour chin-strap padding.
- DOT approved (in Europe ECE-2205 approved).

Sizes: XS to 2XL

Included with the helmet:

- Pinlock® fog-resistant insert
- Owner's manual
- VPS® removal tool
- Chinbar mounting point covers

Features

- VPS® (Vision Protection System) - short dark shield mounted on the inside of the shell and moving independently from the clear shield. As thick as a regular faceshield, it provides real eye protection when used independently from the clear shield. Also available in amber, light smoke, and light blue. Easily operated by a slider on the left side of the helmet.
- Ready for N-COM® communication system.
- Aerodynamic polycarbonate shell with built-in spoiler for improved stability.
- Pivoting chinbar with stainless-steel on stainless-steel latching mechanism and patented articulated hinges. A secondary safety system includes a set of interlocking fingers on each side of the chinbar.
- Dual-action Centromatic® release system (pull the tab on the underside of the chinbar, then squeeze together with the front tab) - for increased safety.
- Fully removable and washable Clima-Comfort® interior on snaps, with superior wicking and wind-noise reduction qualities.
- Removable cheekpads available in 5 sizes for a custom fit, with noise reducing foam filler.
- Super efficient JSW® top vent with exhaust grid in the rear spoiler, channels along the crown, and chinbar vents, operated by glove-friendly rubber sliders.
- Optically correct, push-button quick-change Lexan® faceshield, offers UV 400 protection.
- Multi-position anti-scratch shield accepts NFR antifog insert (included); the insert mounts on the inside of the clear shield to keep the rider fog-free.
- Microlock® (adjustable quick release) retention system.
- Sanitized® is a fiber, not a treatment, which is woven in all Nolan liners, with anti-microbial and hypoallergenic interior to keep the helmets fresher longer.
- Velour chin-strap padding.
- DOT approved (in Europe, ECE-2205 approved).

Size range: XS to 2XL

Included with the helmet:
Wind protector (chin curtain) - installed
Pinlock® fog-resistant insert
